Video Project Script and Storyboard
Fall 2004

Video Concept:

In keeping with the Texas Food TV theme, this video focuses on food. This video uses humor to show a variety of buffalo meat products offered as consumable food products.

Video Purpose:

This video will show locally raised buffalo, buffalo food products and people enjoying those food products.

Video Approach:

This video was largely compiled with file footage that was shot by Texas Food TV at the Lucky B Bison ranch in Bryan, Texas during the 2004 Bison Festival. Several close ups with quick cuts were used to show a variety of products. An interview in the middle of the video sets up the humor and the final sequence of events.

An experimental shot against a green wall will portray an actor walking in a buffalo field. Grazing buffalos will be inserted into the video against the green wall in the edit process. Also, an additional shot of a man's foot stepping in a large pile of buffalo chips will be shot.

Video Composition:

The video has 13 shots, including the start up on the Texas Food TV graphic.

Total Video Time: 58 seconds

The video run time is broken down by shot on the story board. Each shot is discussed and timed in detail. In addition, graphics, transitions and voiceover is discussed in detail.
